

Company Profile

Logicstat

LOGICSTAT INTERNATIONAL PVT. LTD.

Logicstat International Pvt. Ltd. is a trusted manufacturer of voltage stabilizers and power-conditioning equipment in India. With a legacy dating back to 1967, the company has consistently delivered innovation, technical excellence, and reliable power solutions for industrial, commercial, and residential environments.

Mission

To provide advanced, efficient, and dependable electrical stabilization solutions that protect equipment, optimize performance, and ensure long-term power security.

Value Proposition

Logicstat delivers fast, reliable, and high-performance power-conditioning solutions designed to protect equipment and ensure uninterrupted operations. Our products are built for durability, efficiency, and long-term stability, backed by responsive technical support and quick service assistance. With a commitment to dependable power protection, we help businesses maintain smooth, safe, and productive electrical environments.

Fast and reliable service

Efficient customer support

Durable and efficient stabilizer solutions

Core Values

Commitment to quality

We deliver products built to high standards for reliable, long-lasting performance. Quality is our assurance in every product we manufacture.

Continuous Innovation

We constantly upgrade our technology and processes to stay ahead. Innovation drives our growth and product excellence.

Eco-Friendly Operations

We follow energy-efficient and sustainable manufacturing practices. Protecting the environment is part of our responsibility.

PRODUCTS & SOLUTIONS

Logicstat offers a comprehensive range of power-conditioning products suitable for various industries and residential needs.

Applications:

- Industrial: CNC machines, drives, telecom equipment, data processing systems, biomedical equipment

Digital Servo multiple Phase

Digital Servo Single Phase

Control Transformer
Single Phase

Digital Oil Cooled
Three Phase

PRODUCTS & SOLUTIONS

Logicstat offers a comprehensive range of power-conditioning products suitable for various industries and residential needs.

Applications:

- Commercial: Laboratories, small offices, studios
- Residential: ACs, refrigerators, home electronics, main line

Oil Cooled Three Phase

Transformer

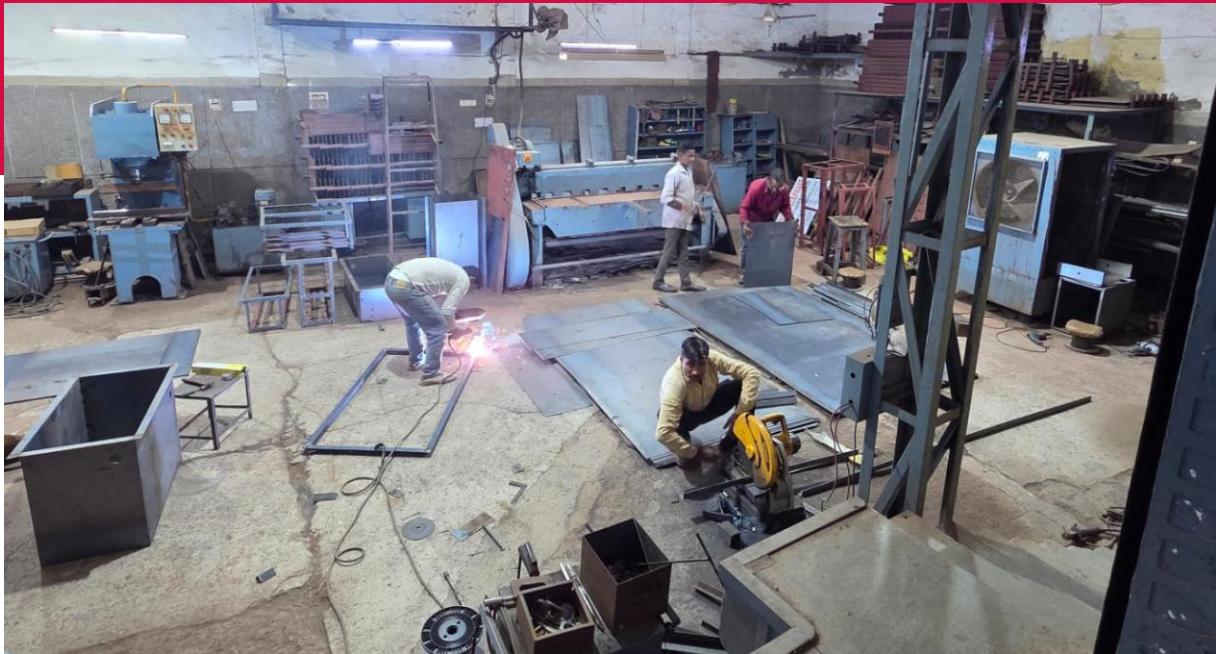

Battery Charger

Key Features:

- Wide input voltage range
- High-purity copper windings
- Vacuum-impregnated transformers
- IC-based electronic circuitry
- High efficiency & reliability
- Short-circuit and overload protection

INFRASTRUCTURE & OPERATIONS

Logicstat operates a modern manufacturing facility equipped with advanced machinery and a skilled technical team.

Infrastructure Strengths:

- State-of-the-art production unit
- In-house transformer and stabilizer manufacturing
- Advanced quality testing and inspection systems
- Use of premium-grade materials such as CRGO laminations and electrolytic copper

Operational Excellence:

- Rigorous quality assurance processes
- Efficient production workflows
- Reliable after-sales service
- Consistent on-time delivery

TEAM, LEADERSHIP & LEGACY

Leadership Team:

Director

Mr. Om Parkash Talwar

Director

Mr. Manish Talwar

Director

Mr. Pawan Kr. Gautam

- Yogita Gulati — Marketing Manager
- Kailash Bhatt — HR Head
- Jyoti Bhatt — Assistant Manager
- Ajay Maggo — Assistant Manager (Accounts)
- Umesh Verma — Works Manager
- Deepak Wadhwa — Service Manager

& still growing...

Competitive Strengths:

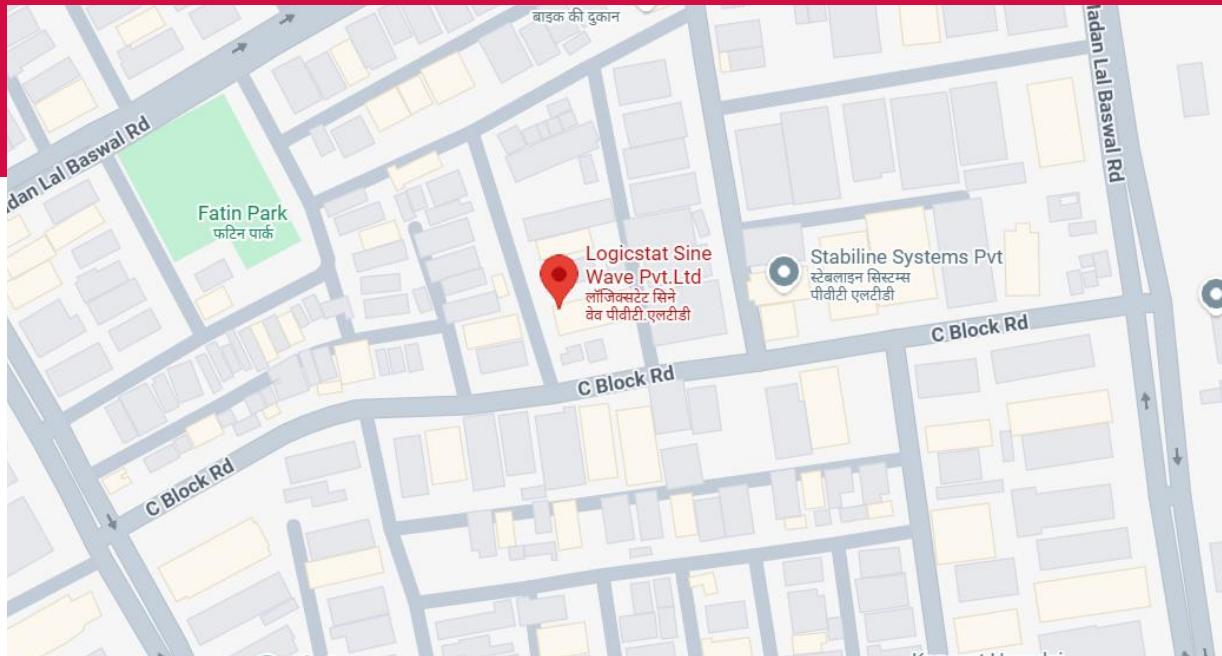

- 50+ years of power stabilization expertise
- Strong R&D focus
- Technical backup and maintenance support
- Customer-centric operational model
